Profile

I am an enthusiastic, hardworking Information Technology Undergraduate with some experience in Full Stack Development. And I have a passion for learning new technologies. I am adept at handling diverse tasks and adapting to changing conditions while maintaining a collaborative team-oriented mindset. Currently, I am seeking an opportunity to gain valuable experience, expand my knowledge, and develop professional skills in the Information Technology sector.

Professional Experience

03/2025 – 09/2025

Capricon Solution - Software Engineer(Intern)

- Developed and enhanced enterprise-level Admin and E-commerce web applications using **React and TailwindCSS**, building reusable components, responsive layouts, and managing application state effectively.
- Integrated **RESTful APIs** within a **microservice-based architecture**, implementing scalable CRUD operations and multi-tenant data flows, while performing testing, debugging, and maintaining Git workflows to improve system stability and code quality.

Projects

2025

Agi price predictor

A machine learning-based forecasting system that predicts wholesale vegetable prices using historical market data and weather conditions. The application combines XGBoost, climate analytics, and explainable AI (SHAP) with an interactive Streamlit dashboard to support smarter agricultural decision-making.

Technologies used : **Python | XGBoost | Streamlit | Scikit-learn SHAP**

2024

Mental Health and Awareness mobile application [🔗](#)

An all-in-one software package that supports mental health and wellness and includes professional appointment scheduling, community support, stress assessments, journaling, and relaxation methods, for comprehensive self-care.

Technologies used : **JavaScript | React.js | React Native | Node.js | MongoDB**

2024

Online Clothing Platform [🔗](#)

Member of the backend team in developing an Enterprise-Level online clothing platform using microservice architecture. Solely responsible for developing the feedback service with Spring Boot and MySQL

Technologies used: **React.js | Spring Boot | MySQL | MongoDB | AWS s3**

2024

MiniLib blog application

A full-stack web application discovers many amazing features including:

- Like and unlike posts
- Comments
- User & Admin Dashboard.

Technologies used: **JavaScript | React | Node.js | MongoDB**

Education

2022 – present	B.sc.(Hons) in Information Technology <i>University of Moratuwa</i> SGPA: 3.37 (L3S2)
2021	Diploma in Information Technology ESOFT Metro Collage
2020	G.C.E Advance Level Examination CP/KOT/ Harangala National School

Skills

Programming Languages

- Java
- JavaScript
- C

Frameworks and Libraries

- React.js
- React Native
- Node.js
- Express
- Spring boot

Databases

- MySQL
- MongoDB

Version Control

- Git
- GitHub

SOFT SKILLS

- Work well in team environments, fostering collaboration.
- Take initiative and guide teams with strong leadership.
- Communicate clearly and effectively with others.
- Manage time efficiently to meet deadlines and priorities

EXTREACURRICULAR ACTIVITIES

Member of IEEE University of Moratuwa: Publicity committee member - Octwave 2.0 | Editorial committee member - Enginuity 2.0

Member of FIT Moment Faculty of Information Technology (2025): Human Resource Committee

Head of FIT Moment Faculty of Information Technology (2026): Human Resource Committee

Certificates

- **HackMoral 6.0 2024**
Hackathon (Individual) Organized by INTECS, UOM - Merit place
- **CodeRush 2023**
Hackathon (Group) Organized by INTECS, UOM - Participation

REFEREES

Dr. Supunmali Ahangama.

Senior Lecturer,
University of Moratuwa.
Email: supunmali@uom.lk [✉](#)
Phone: +94 71 486 6652

Mr. Sampath Sandaruwan.

Senior Software Engineer,
99x,
Email: SampathS@99x.io [✉](#)
Phone: +94 77 447 1293
